

Our policy • Hygiene • Environment • Safety • Quality

Bécancour plant

OUR COMMITMENT

A safe, reliable and efficient site, recognized as such by our clients, a reference for North America as for the rest of the world

✓ HESQ : NUMBER ONE PRIORITY

- Make safety and health our first priority for ourselves, our colleagues and our external providers.
- Make the environment our permanent concern to:
 - reduce our environmental footprint (aqueous rejects) through project investment improvements
 - prevent the risk of accidental pollution
- Satisfying our customers by improving the quality according to their needs.
- Meet the expectations deemed relevant from our stakeholders.

✓ MANAGEMENT SYSTEM

- Develop and continually improve our management system in accordance with applicable regulatory requirements and by integrating security objectives.

✓ RISK ANALYSIS

- Permanently acknowledge the risks (major risks, field level, environment) and implement appropriate preventive programs and projects.
- Observe behaviours (BBS) to prevent risks and reinforce our safety culture.
- Strictly enforce procedures regarding the wearing of PPE and by respecting collective protection.

✓ TRAINING

- Teach, train and motivate our staff on at risk knowledge for rigid intervention.
- Have an efficient succession plan to ensure the transfer of knowledge.

✓ ANALYSIS OF INCIDENTS AND ACCIDENTS

- Analyze incidents and accidents to avoid their repetition.

✓ MECHANICAL INTEGRITY OF EQUIPMENT

- Have a technical inspection program on equipment to ensure their integrity.

✓ EMERGENCY RESPONSE PLAN (ERP)

- Maintain and improve our emergency response plan to intervene quickly and efficiently in the case of an accident.

✓ RECOGNITION

- Recognize efforts and results
